

AIR-STAT Waterproof Outdoor Thermostat

The AIR-STAT outdoor thermostat provides basic control for roof and gutter deicing or pipe freeze protection systems. It detects temperature only, activating the system for continuous operation at 40°F or below. The AIR-STAT thermostat is UL Listed and features a NEMA 4X enclosure and a 3-foot, bulb-and-capillary type sensor. It is rated for a maximum 22 amps and can be used with 120V or 240V roof and gutter deicing systems. Comes with a built-in capillary bulb sensor with a 3 foot sensor lead.

Product Information

- UL and CSA listed
- Non-hazardous locations
- Ingress Protection (IP66) Rating
- 1 Year Warranty
- Waterproofing: NEMA 4X

Product Dimensions

Depth	2.5 inches
Height	3.25 inches
Weight	1 Pound
Width	5.25 inches

Electrical Information

Activation Temperature	40 F°
Connection Method	Hardwired
Maximum Load (Resistive Only)	22 AMPS
Voltage	125, 250, and 480 VAC
CSA Rating	22 amp Resistance 480VAC
UL Rating	22 amp Resistance 480VAC
Switch Type	Single Pole Single Throw
Max. Bulb Temp.	71°C (160°F)
